Post or job title	Engineer / Senior / Group Bridge Engineer
Description of main activities the applicant would be required to undertake	General office-based activities Site visit (specific Risk Assessment will be carried out as per site visit)
Hours and work pattern	37 Hours Monday to Friday

If the work contains any of these elements it is defined as a Part A role:

Work element	**YES**	**NO**
Work at heights (over 2m).		✓
Work in excessively noisy environments.		✓
Work in unusual environmental conditions, such as confined spaces (where the air does not flow free and fresh, or where there may be a build-up of gases, vapours or fumes, or the need for the use of breathing apparatus).		✓
Use of tools and equipment associated with hand, arm or whole-body vibration.		✓
Driving Leeds City Council vehicles.	✓	
Transporting others (that is, only those driving HGVs over 7.5 tons, PCVs, minibuses requiring MIDAS qualification or DVLA Gp 2) and anyone transporting, as part of their normal duties, more than three persons.		✓
Contact with hazardous substances identified as requiring regular health surveillance under COSHH (this includes infectious agents, for example from bodily fluids or zoonoses).		✓
Prolonged or frequent exposure to machine generated wood dust, or other heavy or excessive concentrations of mineral dust.		✓
Work with lead or lead-based products.		✓
Work with, or regularly in, environments where there are likely to be materials containing asbestos.		✓
Work that requires an employee to be immunised.		✓
Fieldwork or work in extreme conditions e.g. involving excessive heat or cold, or frequently walking long distances over rough terrain in all weather conditions.		✓

Any other occupational hazards or comments relevant to this post (state):		✓

All other roles are defined as Part B. Please indicate if the work involves any of these elements:

Work element	**YES**	**NO**
Face to face contact with the public or service users.	✓	
Working in isolation or lone working.	✓	
Work with electrical wiring.		✓
Work where there may be occupational exposure to bodily fluids (all reasonable control measures will have been identified and implemented).		✓
Work that may bring the employee into contact with rodents or other animals or livestock.		✓
Manual handling or moving and handling (i.e. other than routine office lifting and carrying).		✓
Working with vulnerable service users.		✓
Work with repetitive movements or forced posture.		✓
Work as a regular display screen user.	✓	
Work involving the preparation or handling of unwrapped foods to be consumed without further cooking, for example, sandwich preparation.		✓
General office-based activities.	✓	
Potential driving of own vehicle on council business.	✓	
Any other occupational hazards or comments relevant to this post (state):		✓

Please note: Appropriate control measures for these identified hazards will have been identified and implemented.
