## Therapeutic Fostering Services

everyone has a personal best

# Welcome

We are one of the largest providers of specialist education and behavioural health services for children in the UK. We provide services for more than 2,300 individuals across 315 locations. We work with over 140 public authorities and employ more than 3,500 people.

Every person has a personal best and deserves the opportunity to achieve it, so each day our dedicated teams help people across the UK do just that. Through passion and experience we help develop their daily living, using state-of-the-art environments and a modern, person-centred approach.

Cambian services across the UK offer complete care pathway options for children requiring specialist education, care and therapy. Through passion and experience we help the people in our care achieve their personal best, however it is defined by them or for them.
