Welcome

“This is an exciting time to join our leadership team”

Louise Smyth CBE, Chief Executive of Companies House and Registrar of Companies for England and Wales

We're delighted that you're considering a future at Companies House. This is an exciting time to join our leadership team as we work to be the most trusted, open and innovative register in the world.

Our strategy to 2025 has been underpinned by the biggest changes to UK company law, and Companies House, in 180 years. We have taken important first steps on a journey to fundamentally transform what we do and how we do it. You will join us as we finalise our new strategy, setting the direction for the organisation as we continue our transformation journey. We have ambitious plans for the services we provide to more than 5 million companies in the UK and to the millions of users of our data. As we transform, we'll continue to work alongside other government departments to play our part in the battle against economic crime.

Companies House is a high performing organisation, with our people at the heart of everything we're aiming to achieve. In this senior board position, you'll be committed to our culture of empowerment which allows our brilliant people to deliver brilliant services. You'll be an inspiring and natural leader, with a collaborative approach to your work and an exceptional ability to develop effective working relationships.

We live by our adaptable, bold and curious behaviours at Companies House and would love to hear from people who can show us their affinity with these behaviours. I'm truly excited to welcome the successful candidate!

About Companies House

Companies House. Head office reception, Cardiff.

Companies House is an executive agency of the Department for Business and Trade.

We currently employ around 1400 people at our offices in Cardiff, Edinburgh and Belfast and are expecting to grow over the coming years.

We drive confidence in the economy by creating a transparent and accountable business environment. Use of our data informs business and consumer decisions, supports growth and helps disrupt economic crime.

About Companies House

Companies House plays a critical role in the UK economy, helping to make it a great place to start and run a business. The data on our registers informs business decisions, drives corporate transparency and supports growth. We also play a leading role in the fight against corrupt business practices by providing this transparency and clarity. Companies House is an executive agency of the Department of Business and Trade.

This is a really exciting time to join Companies House as we are in the midst of the biggest reform programme since Companies House was established in the 19th Century. In 2023 the UK Government passed the Economic Crime and Corporate Transparency Act, which sought to ensure that Companies House is fully equipped with the powers we need to tackle misuse of the companies register and to support the Government's fight against economic crime. We are making a reality of new powers to maintain the integrity of the register, introducing new processes to verify the identity of directors on the register and developing new capabilities to identify and tackle economic crime on the register.

In parallel we are in the process of modernising our underlying systems and processes, ensuring we use digital tools and cutting age data analytics to maximise the value of the data on our registers and to strengthen our ability to deliver both our core services and our new powers.

Taken together this is a substantial and far-reaching reform programme which will enable Companies House to play a leading role in the fight against corrupt business practices, providing the transparency and clarity necessary for the UK to continue to be regarded as a world-leading place to do business.

These changes will have an impact on our systems, services, culture and ways of working, and we are looking for an experienced leader to join our executive team.
